Dr. Lynn R. Anspaugh
University of Utah
40 North 2030 East Front Street
Salt Lake City, UT 84112-5860

Dr. Lynn R. Anspaugh:

We are pleased to tell you that your manuscript, "Chernobyl Accident: Reconstruction of Thyroid Dose for Inhabitants of The Republic of Belarus" has been accepted for publication in *Health Physics*.

We will send you page proofs for review as soon as they are ready. When you receive these proofs, please return them promptly and limit your changes to minor editorial corrections or typesetting corrections. Reprint orders should be placed at the time you return your page proofs and you will be expected to accept the responsibility for paying the page charges that help offset the high cost of publication. Your submission and interest in publishing in *Health Physics* is appreciated.

***Please note** The editorial staff is always looking for good photographs that we could use on the cover of *Health Physics*. The photos do not have to be a part of your manuscript if they pertain to it. We encourage you to submit photos, along with your manuscripts, that we can use on the cover to introduce your manuscript. Color or black and white can be used. If you have any questions about what might be an appropriate photo, contact the editorial office.

Sincerely,

Deanna Baker
Editorial Assistant
